1. Introduction

Our e-Safety Policy has been written by the school. It has been discussed with staff, agreed by the senior management and approved by Governors. It will be reviewed annually.

It is the duty of the school to ensure that every child in our care is safe, and the same principles should apply to the 'virtual' or 'digital' world as would be applied to the school's physical buildings.

This Policy document has been drawn up to protect all parties: the students, the staff and the school and aims to provide clear advice and guidance on how to minimise risks and how to deal with any infringements.

Last Revised: October 2018

To be revised: November 2019

2. Context and Background

The technologies

ICT in the 21st Century has an all-encompassing role within the lives of children and adults. New internet and online technologies are enhancing communication and the sharing of information.

Current and emerging Internet and online technologies used in school and, more importantly in many cases, used outside of school by children include:

- The Internet – World Wide Web
- E-mail
- Instant messaging (often using simple web cams) e.g. Instant Messenger)
- Web based voice and video calling (e.g. Skype)
- Online chat rooms
- Online discussion forums
- Social networking sites (e.g. Facebook)
- Blogs and Micro-blogs (e.g. Twitter)
- Podcasting (radio / audio broadcasts downloaded to computer or MP3/4 player)
- Video broadcasting sites (e.g. You Tube)
- Music and video downloading (e.g. iTunes)
- Mobile phones with camera and video functionality
- Smart phones with e-mail, messaging and internet access

Our whole school approach to the safe use of IT

Creating a safe ICT learning environment includes three main elements at this school:

- An effective range of technological tools;
- Policies and procedures, with clear roles and responsibilities
- E-Safety teaching is embedded into the school curriculum and schemes of work

Purpose & Scope of the Policy

- To educate pupils about e-safety issues and appropriate behaviours so that they remain safe and legal online
- To help pupils to develop critical thinking skills to reflect and enable them to keep themselves safe.
- To keep any personal data and information secure.
- To minimise the risks of handling sensitive information.

3. Roles and Responsibilities

E-Safety is recognised as an essential aspect of strategic leadership in this school and the Senior Leadership Team (SLT), with the support of Governors, aims to embed safe practices into the culture of the school.

Senior Leadership team

The SLT ensures that the Policy is implemented across the school via the usual school monitoring procedures.

E-Safety Management

Our school Federation IT Resource Supervisors are responsible for ensuring all security updates and firewall protections are up to date and current. They also regularly monitor the appropriate use of ICT resources and the Internet using a secure software package. This indicates content or usage, that pose a risk to children such as cyberbullying or violence.

The ICT Co-ordinators at both the Infant & Junior schools, are responsible for keeping up to date on all e-Safety issues and ensuring that staff are updated as necessary.

Governors

The School Governing body is responsible for overseeing and reviewing all school policies, including the e-Safety Policy.

School Staff

All teachers are responsible for promoting and supporting safe behaviours in their classrooms and following school e-Safety procedures. Central to this is fostering a 'No Blame' culture so pupils feel able to report any bullying, abuse or inappropriate materials.

Staff should ensure they are familiar with the school e-Safety policy, and ask for clarification where needed. They should sign the Staff Acceptable Internet Use agreement annually.

Class teachers should ensure that pupils are aware of the e-Safety rules, introducing them at the beginning of each new school year.

Pupils

Pupils are expected to take an active part in planned lessons and activities to support their understanding and confidence in dealing with e-Safety issues, both at home and school.

They are asked to agree to a set of guidelines and rules covering their responsibilities when using ICT at school

Parents

Parents are given information about the school's e-safety policy through the school's website. The information on the website will provide useful links and facts in order to help keep their children safe when using ICT equipment.

4. Technical and hardware guidance

Content filter

Blue Coat Federation uses a sophisticated content filter to ensure that as far as possible, only appropriate content from the Internet finds its way into school. Whilst this filtering technology is robust and generally effective at blocking unsuitable material, it is still possible for unsuitable material to occasionally get past the filter.

- All pupils and staff have been issued with clear guidelines on what to do if this happens, and parent will be informed where necessary.
- Pupils or staff who deliberately try and access unsuitable materials will be dealt with according to the rules outlined elsewhere in this document.

Downloading files and applications

The Internet is a rich source of free files, applications, software, games and other material that can be downloaded and installed on a computer. Whilst some of this material may be useful, much is inappropriate, and may adversely affect the performance and reliability of school equipment.

- Pupils are not allowed to download any material from the Internet unless directed to do so by an appropriate staff member.

Security and virus protection

The schools subscribe to an Antivirus software programme. The software is monitored and updated regularly by the school technical support staff.

- Any software messages or pop-up screens reporting evidence of viral infection should always be reported immediately to the ICT Administrator

5. E-Safety for Pupils

We believe it is our responsibility to prepare pupils for their lives in the modern world, and ICT is an integral part of that world. At our school we are committed to teaching pupils to use the ICT effectively and appropriately in all aspects of their education.

Internet access at school

Use of the Internet by pupils

Internet access is carefully controlled by teachers according to the age and experience of the pupils, and the learning objectives being addressed. Pupils are always actively supervised by an adult when using the Internet, and computers with Internet access are carefully located so that screens can be seen at all times by all who pass by.

Access for all pupils

We want to ensure that all our pupils have access to the Internet, particularly where this will directly support their learning. To this end, we may provide lunchtime access and after school workshops to extend pupils access to IT resources.

There will be no unsupervised access to the Internet at any time during school clubs or drop in sessions.

Using the Internet for learning

The Internet is now an invaluable resource for learning for all our pupils, and we use it across the curriculum both for researching information and a source of digital learning materials.

We teach all of our pupils how to find appropriate information on the Internet, and how to ensure as far as possible that they understand who has made this information available, and how accurate and truthful it is.

Teachers carefully plan all Internet-based teaching to ensure that pupils are focussed and using appropriate and relevant materials.

- Children are taught how to use search engines and how to evaluate Internet-based information as part of the ICT curriculum, and in other curriculum areas where necessary.
- They are taught how to recognise the difference between commercial and non-commercial web sites, and how to investigate the possible authors of web-based materials.
- They are taught how to carry out simple checks for bias and misinformation
- They are taught that web-based resources have similar copyright status as printed and recorded materials such as books, films and music, and that this must be taken into consideration when using them.

Teaching safe use of the Internet and ICT

We think it is crucial to teach pupils how to use the Internet safely, both at school and at home, and we use the Kidsmart safety code to support our teaching in this area: Kidsmart has been developed by the Childnet charity, and is endorsed by the DfE <http://www.kidsmart.org.uk>

The Kidsmart website is due to close in 2019 and will be replaced by <https://www.childnet.com/young-people/primary>

The main aspects of this approach include the following five SMART tips:

Safe - Staying safe involves being careful and not giving out your name, address, mobile phone no., school name or password to people online...

Meeting someone you meet in cyberspace can be dangerous.....

Accepting e-mails or opening files from people you don't really know or trust can get you into trouble - they may contain viruses or nasty messages...

Remember someone online may be lying and not be who they say they are. If you feel uncomfortable when chatting or messaging end the conversation...

Tell your parent or carer if someone or something makes you feel uncomfortable or worried...

Suitable material

We encourage pupils to see the Internet as a rich and challenging resource, but we also recognise that it can be difficult to navigate and find useful and appropriate material. Where possible, and particularly with younger children, we provide pupils with suggestions for suitable sites across the curriculum, and staff always check the suitability of websites before suggesting them to children, or using them in teaching.

Non-Education materials

We believe it is better to support children in finding their way around the Internet with guidance and positive role modelling rather than restrict Internet use to strict curriculum based research. As well as Internet material directly related to the curriculum, we encourage children to visit appropriate entertainment and child-oriented

activity sites that have interesting and relevant activities, games and information, in free time at out-of-school-hours provision, and at home.

Unsuitable material

Despite the best efforts of the LA and school staff, occasionally pupils may come across something on the Internet that they find offensive, unpleasant or distressing. Pupils are taught to always report such experiences directly to an adult at the time they occur, so that action can be taken.

The action will include:

1. Making a note of the website and any other websites linked to it.
2. Informing the ICT Administrator
3. Logging the incident – ICT Incident Log Book in the school office
4. Discussion with the pupil about the incident, and how to avoid similar experiences in future

Using E-Mail at school

E-Mail is a valuable and stimulating method of communication that plays an important role in many aspects of our lives today. We believe it is important that our pupils understand the role of e-mail, and how to use it appropriately and effectively.

- We teach the use of e-mail as part of our ICT curriculum, and use appropriate pupil email accounts where necessary
- Pupils are not allowed to access personal e-mail using school Internet facilities

Chat, Discussion and Social Networking sites

These forms of electronic communication are used more and more by pupils out of school, and can also contribute to learning across a range of curriculum areas.

Online chat rooms, discussion forums and social networking sites present a range of personal safety and privacy issues for young people, and there have been some serious cases highlighted in the media.

We use the resources, guidelines and materials offered by Kidsmart (due to be replaced by <https://www.childnet.com/young-people/primary>), as outlined above in the Safe use of the Internet section to teach children how to use chat rooms safely. All commercial Instant Messaging and Social Networking sites are filtered as part of the LA Internet policy

Internet-Enabled Mobile Phones and Handheld Devices

More and more young people have access to sophisticated new internet-enabled devices such as SMART mobile phones, tablets and music players.

It is important that whilst the school recognises the potential advantages these devices can offer, there are clear and enforceable rules for their use in school, particularly when they give access to the Internet, and allow pictures and information to be remotely posted to a website or weblog.

When age appropriate, pupils at Blue Coat Federation will be taught the legal and moral implications of posting photos and personal information from mobile phones to public websites etc. and how the data protection and privacy laws apply.

- Pupils are NOT allowed to have personal mobile phones or other similar devices in school. Parents may request that such devices are kept at the School Office for pupils who may need them on their journey to and from school.

Cyberbullying - Online Bullying and Harassment

Online bullying and harassment via Instant messaging, mobile phone texting, e-mail and chat rooms are potential problems that can have a serious effect on pupils. Blue Coat C E Infant and Junior Schools have a range of strategies and policies to prevent online bullying, outlined in various sections of this policy. These include:

- No access to public chat-rooms, Instant Messaging services and bulletin boards.
- Pupils are taught how to use the Internet safely and responsibly, differentiated by age and are given access to guidance and support resources from a variety of sources.

We encourage pupils to discuss any concerns or worries they have about online bullying and harassment with staff, and have a range of materials available to support pupils and their families.

- Complaints of cyber-bullying are dealt with in accordance with our Anti-Bullying Policy.
- Complaints related to child protection are dealt with in accordance with school child protection procedures.

Contact details and privacy

As specified elsewhere in this policy, pupil's personal details, identifying information, images or other sensitive details will never be used for any public Internet-based activity unless written permission has been obtained from a parent or legal guardian. Pupils are taught that sharing this information with others can be dangerous.

School and Pupil Websites – Pictures and Pupil Input

As part of the ICT and wider curriculum, pupils may be involved in evaluating and designing web pages and web-based resources.

Any work that is published on a public website and attributed to members of our school community will reflect our school, and will therefore be carefully checked for mistakes, inaccuracies and inappropriate content. At times, pupils may design and create personal web pages or presentations. These pages will only be made available to other school users, or as part of a password protected network or learning platform.

Where pupil websites are published on the wider Internet, perhaps as part of a project with another school, organisation etc., then identifying information will be removed, and images restricted.

Deliberate Misuse of the Internet Facilities

All pupils have discussed the rules for using the Internet safely and appropriately. These rules should be displayed in each classroom and the ICT suite

Where a pupil is found to be using the Internet inappropriately, for example to download games, or search for unsuitable images, then sanctions will be applied according to the nature of the misuse, and any previous misuse.

Sanctions will include:

Unsuitable material (e.g. online games, celebrity pictures, music downloads, sport websites etc)

Initial warning from class teacher

Banning from out of school hours Internet facilities

Report to the Senior Leadership Team

Letter to parent/carer

Offensive material (e.g. pornographic images, racist, sexist or hate website or images etc)

Incident logged and reported to Head teacher

Initial letter to parent/carer

Removal of Internet privileges/username etc

Meeting with Parent/Carer to re-sign Internet use agreement

Removal of Out of School Hours access to Internet

Subsequent incidents will be treated very seriously by the Senior Leadership Team, and may result in exclusion and/or police involvement.

How will Complaints Regarding E-Safety be Handled?

It is the duty of the school to ensure that every child in our care is safe, and the same principles should apply to the 'virtual' or 'digital' world as would be applied to the school's physical buildings. Staff and pupils are given information about infringements in use and possible sanctions.

Sanctions available include:

- All incidents will be recorded
- Interview/counselling by class teacher, Senior Management Team, e-Safety Coordinator and The Senior Leadership Team;
- informing parents or carers;
- removal of Internet or computer access for a period,
- referral to LA / Police.

Our e-Safety Coordinators act as first point of contact for any complaint. Any complaint about staff misuse is referred to the Executive or Deputy Executive Head teacher.

Class Rules for responsible ICT use

Keep safe: Keep SMART

1. I will ask permission before using any ICT equipment (e.g. computers, digital cameras, etc), and only use it when a teacher or another adult is with me. .
2. I will only delete my own files, and I will not look at other people's files without their permission.
3. I will use the usernames and passwords provided by the school to access the school network
4. I will not bring software or USB memory sticks into school without permission
5. I will not use Google image search without being asked to do so by a school staff member
6. I will not download anything (files, images etc) from the Internet unless given permission
7. The messages I send or information I upload as part of my school work will always be polite
8. I will not give my home address, phone number, send a photograph or video, or give any other personal information online that could be used to identify me, my family or my friends
9. If I see anything that makes me uncomfortable, or I receive a message I do not like, I will not respond to it but I will immediately tell a school staff member
10. I will use the Kidsmart (<https://www.childnet.com/young-people/primary>) website to help me understand how to keep safe when using ICT
11. I understand that the school may check my computer files and the Internet sites I visit, to help keep me safe.
12. I understand that if I deliberately break these rules my parents and the Senior Leadership Team will be informed

6. Use of the Internet and ICT resources by school staff

The Internet

Our school understands that the Internet is a valuable resource for school staff. It provides a wealth of resources, teaching materials and information that teachers can use across the curriculum. It allows staff to share resources with other schools, and to engage in debate and discussion.

We are committed to encouraging and supporting our school staff to make the best use of the Internet and all the opportunities it offers to enhance our teaching and support learning.

Internet Availability

To enable staff to make full use of these important resources, the Internet is available in school to all staff for professional use.

ICT Equipment and Resources

The school also offers staff access to appropriate ICT equipment and resources, including computers, laptops, tablets, interactive whiteboards, data projectors, digital cameras, video camcorders, sound recorders, control and data logging equipment and a range of professional and curriculum software

Professional Use

Staff are expected to model appropriate ICT and Internet use at all times. This supports our commitment to encouraging safe and appropriate ICT and Internet use by our pupils both in school and at home.

Staff are also careful to consider inclusion and equalities issues when using ICT and the Internet, and to provide pupils with appropriate models to support the school Inclusion and Equal Opportunities policies.

Staff who need support or INSET in using ICT as part of their professional practice can ask for support from the ICT Co-ordinator.

Personal Use of the Internet and ICT resources

Some equipment (including laptops) is available for loan to staff, with permission from the Federation ICT Resource Supervisors and the Executive Head Teacher. The appropriate forms and agreements must be signed. However, all staff must be aware of the school policy on using school Internet and ICT resources for personal use. These are outlined in the staff agreement form below.

E-mail

We recognise that e-mail is a useful and efficient professional communication tool. To facilitate this, staff members will be given a school e-mail address and we ask staff to use it for all professional communication with colleagues, organisations, companies and other groups.

Staff are reminded that using this e-mail address means that they are representing the school, and all communications must reflect this.

E-mail accounts provided by the school may sometimes need to be accessed, although personal privacy will be respected.

Online discussion groups, bulletin boards and forums, online chat and messaging

We realise that a growing number of educationalists and education groups use discussion groups, online chat forums and bulletin board to share good practice and disseminate information and resources.

The use of online discussion groups and bulletin boards relating to professional practice and continuing professional development is encouraged, although staff are reminded that they are representing the school, and appropriate professional standards should apply to all postings and messages.

Social Networking

The school appreciates that many staff will use social networking sites and tools. The use of social networking tools and how it relates to the professional life of school staff is covered in Staff Conduct expectations, when receiving safeguarding training and our social media policy.

Data Protection and Copyright

The school has data protection policy in place. Staff are aware of this policy, and how it relates to Internet and ICT use, in particular with regard to pupil data and photographs, and follow the guidelines as necessary.

Staff understand that there are complex copyright issues around many online resources and materials, and always give appropriate credit when using online materials or resources in teaching and learning materials.

They also support pupils to do the same.

INFANT AND JUNIOR SCHOOLS' FEDERATION**

BELIEVING, CELEBRATING, SUCCEEDING

EXECUTIVE HEAD TEACHER: MR A. ORLIK

Blue Coat Federation

E-Safety Policy Staff Agreement Form

This document covers use of school digital technologies, networks etc both in school and out of school.

Access

- I will obtain the appropriate log on details and passwords from the ICT Co-ordinator.
- I will not reveal my password(s) to anyone other than the persons responsible for running and maintaining the system.
- If my password is compromised, I will ensure I change it. I will not use anyone else's password if they reveal it to me and will advise them to change it.
- I will not allow unauthorised individuals to access school ICT systems or resources

Appropriate Use

- I will only use the school's digital technology resources and systems for professional purposes or for uses deemed 'reasonable' by the SLT and Governing Body.
- I will never view, upload, download or send any material which is likely to be unsuitable for children or material that could be considered offensive to colleagues. This applies to any material of a violent, dangerous or inappropriate sexual content.
- I will not download, use or upload any material which is copyright, does not have the appropriate licensing or that might compromise the network
- I will report any accidental access to, or receipt of inappropriate materials, or filtering breach to the e-Safety coordinators or member of the SLT.

Professional Conduct

- I will not engage in any online activity that may compromise my professional responsibilities
- I will ensure that any private social networking sites / blogs etc that I create or actively contribute to are not confused with my professional role
- I will never include pupils or former pupils as part of a non-professional social network or group
- I will ensure that I represent the school in a professional and appropriate way when sending e-mail, contributing to online discussion or posting to public websites using school facilities
- I will not browse, download or send material that could be considered offensive to colleagues
- I will report any accidental access to, or receipt of inappropriate materials, or filtering breach to the appropriate line manager / school named contact

Personal Use

- I understand that I may use Internet facilities for personal use at lunchtimes and break time, where computers are available and not being used for professional or educational purposes.
- I understand that I may access private e-mail accounts during the availability periods outlined above for personal use, but will not download any attachments, pictures or other material onto school computers, or onto the school network area.
- I understand that the forwarding of e-mail chain letters, inappropriate 'jokes' and similar material is forbidden.
- I will not use the school Internet facilities for personal access to public discussion groups or social networking sites

Email

- I will only use the approved, secure email system for any school business
- I will only use the approved school email, or other school approved communication systems with pupils or parents/carers, and only communicate with them on appropriate school business.

Use of School equipment out of school

- I agree and accept that any computer or laptop loaned to me by the school, is provided mainly to support my professional responsibilities and that I will notify the school of any "significant personal use"
- I will return school equipment regularly (to be agreed with Federation ICT Resource Supervisors) to be checked and updated
- I will not connect a computer, laptop or other device (including USB flash drive), to the network / Internet that does not have up-to-date anti-virus software

Teaching and Learning

- I will always actively supervise, or arrange for suitable supervision of pupils that I have directed or allowed to use the Internet
- I will embed the school's e-safety curriculum into my teaching, using agreed resources and materials
- I will ensure I am aware of digital safety-guarding issues so they are appropriately embedded in my classroom practice
- I will only use the Internet for professional purposes when pupils are present in an ICT suite, or a classroom with Internet access

Photographs and Video

- I will not use personal digital cameras or camera phones for taking and transferring images of pupils or staff without permission and will not store images at home without permission
- I will never associate pupil names or personal information with images or videos published in school publications or on the Internet (in accordance with school policy and parental guidance)

Data protection

- I will not give out or share personal addresses (including email), telephone / fax numbers of any adult or students working at the school.
- I will not take pupil data, photographs or video from the school premises without the full permission of the head teacher e.g. on a laptop, memory stick or any other removable media
- I will ensure that I follow school data security protocols when using any confidential data at any location other than school premises
- I will respect the privacy of other users' data, and will never enter the file areas of other staff without their express permission
- I understand that data protection policy requires that any information seen by me with regard to staff or pupil information, held within the school's information management system, will be kept private and confidential, EXCEPT when it is deemed necessary that I am required by law to disclose such information to an appropriate authority.

Copyright

- I will not publish or distribute work that is protected by copyright
- I will encourage pupils to reference online resources and websites when they use them in a report or publication

User Signature

I agree to abide by all the points above.

I understand that it is my responsibility to ensure that I remain up-to-date and read and understand the school's most recent e-safety policies.

I agree to have a school user account, be connected to the Internet via the school network and be able to use the school's ICT resources and systems.

Signature Date.....

Full Name (printed)

Job title

8. Data Protection Policy

Our school is aware of the data protection law as it affects our use of the Internet, both in administration and teaching and learning.

We adhere to the LA Guidelines on Data protection.

Staff and pupils understand the legal and disciplinary implications of using the Internet at school for illegal purposes.

Where appropriate, the police and other relevant authorities will be involved in cases of deliberate misuse or abuse of the Internet by members of the school community using the connection provided by the school.

9. Staff Laptop and ICT Equipment Loans

Any member of staff who borrows or uses a school laptop, computer or any other ICT equipment must adhere to all aspects of this e-Safety Policy.

This must be the case wherever the laptop, computer or other such device is being used as it remains the property of Blue Coat Federation at all times.

Staff must undertake to take proper care of the equipment whilst in their possession and will abide by the requirements of the school's insurance policy with regard to protecting the equipment from loss or damage. They must also agree that, should the equipment be lost or damaged due to exposure to a non-insured risk, they will be liable for the cost to replace or repair the equipment. The Federation ICT Resource Supervisors / Executive Head Teacher must be informed at the earliest opportunity of any loss or damage to ICT equipment. Staff must sign the 'Staff Laptop and Computer Loans Agreement' before taking the equipment away from the school premises.

Love God, love others

Let your light shine

BELIEVING, CELEBRATING, SUCCEEDING

EXECUTIVE HEAD TEACHER: MR. A. ORLIK

DEPUTY EXECUTIVE HEAD TEACHER: MS. E. INGRAM

Federation Laptop Loan Agreement.

Blue Coat Federation provides laptop computers to some staff to assist in the delivery of the Curriculum. The Executive Head Teacher has agreed that a laptop computer will be loaned to you while you remain employed at this school. This loan is subject to review on a regular basis, and can be withdrawn at any time.

As a member of staff to whom a laptop has been loaned I have read and agree to the following terms and conditions that apply while the laptop is in my possession:

1. The Laptop and any accessories provided with it, remains the property of Blue Coat Federation and is strictly for my sole use in assisting in the delivery of the Curriculum.
2. I understand the schools' insurance cover provides protection from the standard risks but excludes theft from a vehicle. If the laptop is stolen from an unattended vehicle or a house left unattended where reasonable precautions had not been taken to keep the equipment secure, I will be responsible for its replacement.
3. Staff should make every reasonable effort to keep their laptop safe overnight. Laptops, where possible, should not be left unattended in a parked car. On those occasions where there is no alternative, they should be locked out of sight in the boot.
4. I agree to: treat the laptop with due care and keep the laptop in good condition, ensure that it is strapped in to the carry case when transported and/or not in use, not leave the laptop unattended in class without being secured and avoid food and drink near the keyboard/touch pad.
5. I agree to back up my work on a regular basis. I understand the school will not accept responsibility for the loss of work in the event of the laptop malfunctioning.
6. I agree to only use software licensed by the school, authorised by the Executive Head Teacher and installed by the Federation's ICT staff.

Assistant Head: Mr. P. Harris
Springhill Road, Walsall, WS1 2LP
Tel: 01922 720921 Fax: 01922 640013
Email: postbox@bluecoatfederation.co.uk

7. I agree to not leave my laptop logged in and unattended at any location, including at home. I also agree to not permit persons other than Federation staff to have access to the laptop and the potentially sensitive material it provides access to.
8. E-Mail attachments are one of the main sources of computer viruses. I agree to not open any E-Mail attachments unless they are expected from a legitimate source.
9. Blue Coat Federation will not tolerate inappropriate materials such as pornographic, racist, defamatory or harassing files, pictures, videos or e-mail messages that might cause offence or embarrassment. Never store, use, copy or circulate such material on the laptop and steer clear of dubious websites.
10. Should any faults occur, I agree to notify the Federation's ICT staff as soon as possible so that they may undertake any necessary repairs. Under no circumstances should I, or anyone other than the Federation's ICT staff, attempt to fix suspected hardware, or any other faults.
11. No software should be removed, uninstalled or disabled under any circumstances. Any software problems should be reported through the usual support channels.
12. I agree that home Internet access is permitted at the discretion of the Executive Head Teacher. I understand the Federation will not accept responsibility for offering technical support relating to home Internet connectivity.
13. I agree that any telephone/broadband charges incurred by staff accessing the Internet from any site other than Federation premises, or from any connection other than those provided by the Federation are not chargeable to the Federation.
14. I agree to adhere to Federation and LA policies regarding the following, updated as necessary:
 - Acceptable use,
 - Data protection,
 - Electronic Information & Communications Systems
 - Information Security
 - Staff Internet Use,
 - Health and safety.

Note on Insurance.

The standard All Risks insurance policy covers the laptops for theft (where there are signs of forced entry), and accidental or malicious damage. Laptops may also be covered under the Federation's insurance for flood/water damage, storm damage etc. All equipment in Schools is automatically covered for fire, lightning and explosion.

Laptops are not covered by the school policy:

- Whilst in vehicles,
- Left unattended in a locked household where reasonable precautions had not been taken to keep the equipment secure.

Any theft should be immediately reported to the police and a crime reference number should be obtained and provided to the Federation's ICT staff. If stolen or damaged from an employee's home, the Federation would first ask for a claim under the staff member's household policy. Claims from the School policy will only be made if this were unsuccessful.

Please note that regardless of the policy a stolen laptop is claimed under, a claim will not be considered unless there are signs of forced entry or assault.
