Communication has been something we have all missed out on of late and therefore Fit For Sport are excited to further enhance children's social skills in a fun and engaging way through the introduction of Makaton to their Holiday Camp activity programme! Makaton is a unique language programme that uses symbols, signs and speech to enable people to communicate. Delivered by their trained professionals – children will enjoy connecting with others with this new and engaging form of communication - learning everyday tasks such as learning at school, asking for food and drink, making friends and having fun. Find out more here: <https://makaton.org/>.
